

QUALITY POLICY

National Irrigation Board (NIB) is committed to promoting food security through development and management of irrigation infrastructure to facilitate irrigated agriculture for economic development. In pursuit of this commitment, the top management shall ensure quality objectives are established at relevant levels and functions of the board.

To this end, we shall ensure customer and applicable legal requirements are met and the effectiveness of the Quality management system is continually improved by adhering to the requirements as set out in **ISO 9001:2015** standard

This policy and the established quality objectives shall be reviewed as necessary for continuing suitability
