The National Irrigation Authority invited sealed tenders for the following:

<table>
<thead>
<tr>
<th>S.No.</th>
<th>Tender No.</th>
<th>Tender Name</th>
<th>Document Upload Date</th>
<th>Tender Submission Deadline</th>
<th>Target group</th>
</tr>
</thead>
</table>

In response to the clarification(s) sought by participating firms and in accordance with Clause 2.4.1 & 2.4.2 of Instructions to Tenderers of the issued tender document, the Employer, National Irrigation Authority (Authority), has provided the response to the clarifications sought.

**Question 1**
For each site provide the following information for each generator;

- Generator Makes/Manufacturer & Model number
- Generator serial number
- Engine Serial Number

*These details have been provided in Section V of the bid document (Schedule of requirements)*

**Question 2**
State the number of the generators on each site where the generators are available

*The specific number of generators, type and ratings have been provided in Section V of the bid document (Schedule of requirements) and in the Bill of Quantities (BoQs).*

**Question 3**
Advice if the generators on site with more than one generator are of the same make and size hence the service parts and coolant/oil are the same and equal in the amount respectively
Different stations have different make and sizes of generators. In most of the cases, quantity of parts and coolant/oil required per visit per station has been provided in the BoQs.
